Chocovic Selvaticas Range

The Spanish word “selvática” refers to the lush tropical rain forests where cacao grows wild and which, together with the exotic legends of the divine origins of cacao, is the inspiration for these exotically flavoured quality chocolates.

The SELVÁTICA COUVERTURE range is made up of TARAKAN and KENDARI, dark couvertures with 75% and 60% cacao respectively, NAYARIT, a 37% cacao milk chocolate couverture, and JAINA, a 31% cacao white chocolate.

Beautifully indulgent chocolate for eating and cooking with. The unique feature of the Nayarit and Jaina is they both contain yoghurt to eliminate the oversweet aftertaste often associated with milk and white chocolate, leaving a fresh, slightly citrus flavour.

80g bars \$7.90

Pons Family Selection Extra Virgin Olive Oils

From the Pons family estate we offer a premium selection of single varietals and a traditional and organic blend. Come in and taste the range to decide for yourself which suits your palette and pocket the best. Picual and Hojiblanca are particularly flavoursome varietals with distinctive undertones.

Agusti Torello Mata Cava Vinegar

Agusti Torello Mata is a well regarded Cava (Spain's own version of Champagne) producer based near Barcelona. Cava vinegar is directly produced from the fermented Cava with the addition of the acetobacter to transform the alcohol into acetic acid and then aged for a period first in American Oak and then French Oak barrels. The sweet style white balsamic lifts seafood dishes and braised or baked vegetables while the dryer Sec vinegar gives a crisp finish to grilled vegetables and salads. All bottles come with an additional atomizer that can be inserted for a light mist effect on salads.
